About ACE

ACE Leadership High School is where education meets the real world. Our team approaches high school differently. We invest in every aspect of our students' lives to prepare them with the tools, support, and connections they need to thrive. We focus on practical projects instead of tests and partner with leaders in New Mexico's ACE industries to get everyone learning on their feet rather than cramped behind a desk. We all know the world of work is changing, and education should too. That's why we're building a better future together.
